Owing to the rush in getting out the Broadhead Fair catalogue, and other job work the following item was inadvertently overlooked, by "proof reader, the editor, who had his mind on affairs other than news paper work. Here is the way it should have read:

Nell—Just one month ago to-day Stella and I agreed to point out each other's faults without reserve. Bess—And are you still doing it? Nell—Oh, no. We haven't spoken to each other for 29 days.

The assistant botanist at Washington says: "In the United States, the production of hemp is almost confined to Kentucky. Three-fourths of the American hemp fiber is produced in the counties of Fayette, Woodford, Jessamine, Garrard, Clark, Bourbon, Boyle, Scott

and Shelby. These nine counties are in the famous Blue Grass region, of Lexington, the principal hemp market, is the center. The most important secondary hemp markets in this region are Nicholasville, Versailles, Lancaster, Danville, Winchester, Paris, Georgetown, Shelbyville and Frankfort. Small scattered areas of hemp are cultivated intermittently in other parts of the State, and there are probably few counties in Kentucky in which an attempt has not been made at some time to establish the hemp-growing industry. Exceptionally fine crops are produced on the bottom lands along the Kentucky River and its tributaries, although it is regarded as risky to cultivate it where it is subject to overflow."

Sad, for some of us, reunion here can be no more until we reach the other shore.

Since Wednesday, the opening day of the fair, our little city has taken on new life. Strangers from all parts are thronging our streets, every house is besieged by persons wanting board, eatables of every description are in demand. If the fair were to last all summer some folks might get rich, as wealth seems to be the goal which all are striving to reach, in the vain imagination, that wealth brings happiness, but "if happiness have not her seat and center in the breast, may be wise or rich or great, but never can be blest."

FOR CONGRESS.

HON. GEORGE G. GILBERT,
OF SHELBY.

H. H. HENNINGER,

Of Wayne county is a candidate for State
Treasurer, subject to the action of the
Democratic party.

LOUIS LANDRAM, the Lancaster
Record man, is one of the best all
around newspaper men in the state.
We think his paper read at Hend-
erson Press association meeting in
1899 will bear repeating at this
time, it being appropriate to the
occasion:

"The weekly press of to-day has
a far more circumscribed field of
labor than it did a quarter of a
century ago. In 'Ye Olden Tyme'
the destiny of the nation, its public
policy, and all questions of grave
import were suggested by the week-
ly press. The country newspapers
all over the land kept even track
with the public pulse, and in
instances, the wielders of the
editorial pen were men of

ability, whose close touch with
constituency enabled them to
the way with an almost abso-
lute accuracy, and to give our public
a clear insight into what our people
expected of them. The rural dis-
tricts seldom saw a daily newspaper,
and had to depend upon the weekly
press for all news of the great out-
side world. Railroads were few and
far between. The old-fashioned,
lambling stage coach, with its
two, four or six horses, carried the
mails to the interior towns, and the
city papers were always as much as
twenty-four hours old, and it was
usually the weekly editions of those
papers that reached the firesides of
the favored few. A daily paper
was such a rarity that it was handed
round from household to household,
and it was not an unusual occur-
rence, upon the arrival of the stage
coach, to see a knot of leading
citizens listening to the town reader
as he read the news of the day,
political and general, from some
sheet at that time probably forty-
eight hours old. The annihilators
of space, known as the fast mail
trains, have changed all this. There
is scarcely a town in Kentucky that
does not receive bundles of Louis-
ville, Cincinnati, Chattanooga or
other dailies within twenty-four
hours of their date of issue. This
has, of necessity, curtailed, to a
great degree, and has practically
transformed the weekly. Its field
of usefulness has been narrowed,
and, according to my way of think-
ing, it now fills its proper place.
The people of a county are but a
large family, their interests as such
are the same; the movements of
their neighbors and friends, the
price of hogs, cattle, butter, eggs
and farm products are matters of
far more moment to them than the
question whether Leatherlung, Do-
little or Ananias Windjabber shall
be made ambassador to the Fiji
Islands. I believe that the weekly
press should be absolutely non-
partisan in politics. I do not think
that the personal opinion of the
editor of a cross-roads weekly would
have a feather's weight in deciding
either state or national politics. I
believe the columns of the weekly
paper should be filled with the
comings and goings of the neigh-
bors and friends, in fact should be
a cozy corner in which we can find
in detail what our home people are
doing in a social and business way.
I believe that the editorial column
should be taken up with articles for
the general welfare and progress of
our home people. When we do
this conscientiously, and fill our
columns with all the news of our

county, however trivial it may sound
to strangers, I believe the result
will be a large circle of interested
home readers, and I further believe
that we small fry can safely leave
the discussion of national affairs to
those who hold down the tripods of
the great daily papers."

THERE are enterprising men in
all localities, Mt. Vernon not ex-
cepted. Because great success has
not crowned the efforts of those,
here, who have worked diligently,
some in one line and some in others,
doesn't prove that our locality will
not be benefitted in the long run
from the work done by these per-
sons who try to better the condition
of our county by their push for
better things and for the bringing
in outside capital to develop the
immense resources that lie dormant
right at our doors. These efforts
will not prove in vain however, be-
cause the good time is coming for
old Rockcastle.

MR. EDGAR S. ALBRIGHT, Editor
of this paper, and Miss Lucy Brock,
were married at the residence
of the bride's parents in Loudon
Monday morning, the Rev. C. T. Runyon
and Rev. McGarity officiating.
Immediately after the ceremony
the couple left for Owensboro to
attend the annual meeting of the
Kentucky Press Association. They
will also take in the outing with
members of the association which
includes a visit to Cincinnati,
Toledo, Put-in-Bay, Sandusky,
Sarnia, Ont., and Michigan points,
and return to Mt. Vernon about
the 29th.

WHILE Rockcastle has not started
a well up to date, since oil ex-
citement, it will yet prove to be the
garden spot of the Kentucky oil
field. There are some mighty good
local people as well as others, with
ample capital, to develop the oil
and gas resources of our county.
All this will come in due time.
No great undertaking can be ac-
complished in a short space of time
and particularly is this true in the
oil development as history will
show in regard to all territory heret-
ofore developed, so we can't expect
an exception here.

THE most remarkable criminal of
today is Harry Tracey, who killed
guards in escaping from penitenti-
ary six weeks ago and has been
chased in state of Washington, by
a thousand men with blood hounds.
He has slain half a dozen or more
of his pursuers, including sheriffs,
deputies and possemen and wound-
ed a dozen or more. He also slew
his companion fugitive, fearing the
immense rewards offered would
tempt Merrill to betray him. Sus-
picion is that help is being rendered
the fugitive on account of his des-
perate courage.

JUDGE JOHN C. CHENAULT, of
Richmond, who has worked faith-
fully, for past six years for the de-
velopment of Brush Creek valley
this county, is to be congratulated
on the beginning of the construc-
tion of the railroad from Brush
Creek Station to some point Jack-
son county. Our people are proud
to acknowledge their obligation to
the Judge for his success in getting
the enterprise to the point he has.
It will prove of much benefit to our
county.

AN item, mentioning that Sec-
retary John Hay paid \$10.50 express
on a ton of coal, is going the
rounds of the press. Another item
mentions where a farmer paid \$7.50
express on a bull. This looks
small when compared with express
charges of \$49.50 paid by Hugh
Miller & Co., on a single piece of
casting, weighing a ton, from
Chicago to Maysburg, this county,
a few years since when they were
running a rock crusher at that
place.

THE devil and foreman of STIG-
NAL office, with a friend's assist-
ance, has charge of this week's is-
sue and if it is not warm enough
say it till the cold days of January.

HARRY G. TANDY, an old news-
paper man, of McCracken county,
has announced for Secretary of
State. Tandy is all right.

THE subject of primary elections
was exhaustively treated in last is-
sue of Interior Journal. We agree
with that excellent paper that the
only fair and impartial manner of
nominating candidates, is through
a primary as against conventions
wherein the will of the people is so
often thwarted by bosses and selfish
cliques. Primaries cost money but
they are worth all they cost. The
people know what they want and
only have to demand it.

DON'T be too hard on the editor
for last week's issue of this paper.
Take in consideration the amount
of work in the office, and the fact
that he was to embark on the sea
of matrimony, three days afterward,
ought to palliate to a great extent
for any shortcomings in the paper.

CONGRESS could have knocked
the underpinning from beneath the
Beef Trust; but it didn't. Now it
is up to the voter to knock the
underpinning from underneath
Congress.

Saturday and sustained serious in-
juries. This is his third fall.
About two years ago he fell about
sixty feet, from a bridge on the

moved Thursday to his home at

One of the saddest accidents we
have had to chronicle, occurred
here last Saturday in the death of
Lapsley Howell, 17 years of age,
son of Mr. and Mrs. George How-
ell. He attempted to board a
freight train and missing his foot-
ing fell under the wheels and was
frightfully mangled. He was very
popular and of good habits and his
sudden death cast a gloom over
the entire community. His parents,
brothers and sister, have our sin-
cere sympathy. Short but impres-
sive services were held at the grave
yard across the river.

Americans are laughing at this
Seoul dispatch recently printed in a
Korea paper which is published in
the "English language":

"Lately the Police Headquarters
ordered to forbid the servants, etc.,
to run the horses fastly on the big
streets as they sometimes pressed
the children down and hurted them
on the ground and the police stop-
ped a mapoo running a horse hardly
on its back, but a number of soldiers
came along quickly and captured
the police away."

Observer:

"There is a mad dog scare here
at present. Every dog that acts
like he had wheels in his head is
killed. Three dogs, one old cat
and an old rooster has been killed
that was claimed to have been bit-
ten."

And the English of the Girard

He traveled this county for many years as a shoe salesman. He has many friends here who always welcome him with an open hand, and that solid institution is lucky to secure such a man.

Hazel, the little daughter of Dr. M. L. Myers, continues very ill.

LOCALS

Most of our county schools began Monday last.

There is a fair crop of huckleberries this season.

The Mt. Vernon Brass Band will play for the Brodhead fair.

Squire Leece's court at Brodhead is assuming the proportions of circuit court.

Keep in mind the dates (August 20, 21, 22) of the Brodhead Fair, and then be sure to attend.

DOWELL.—Mrs. Nannie Dowell, wife of William Dowell, died Tuesday afternoon, of consumption.

The circulation of the SIGNAL has been almost doubled since it came in possession of its present owner.

U. G. Baker continues the use of printers ink through this paper, and is offering bargains to burn. His "ad" is the first thing you see on opening the SIGNAL.

The examining trial of J. R. Robinson, charged with attempted rape, was held Tuesday. The defendant was held to Circuit Court in the sum of \$250.

From the number of heavy trains going over the road daily it would seem that business was never better than now on this division of the L. & N.

The amount of shipments from Langford quarries is curtailed by their inability to get enough cars to fill orders for their fine stone. D. L. Carter the foreman and manager, F. S. Phillips are hustlers and their services are appreciated by the company. Mr. Carter has been employed for years, almost from the beginning of opening of quarries in the county and but few men know more than he does on the proper manner of management in successful stone quarrying.

Prisoners made a rush on Jailer Parsons at supper time last night and made for the woods. The jailer captured one and Willie Fish another. J. R. Robinson charged with attempted rape escaped.

Extremely low rates will be given by the railroad to visitors to Mammoth Cave July 30th to August 18th when the various companies of State Militia will be in encampment.

HAMPTON.—Peter Hampton, who had been running a restaurant at Livingston for some time past died at his home near Rowland Monday morning. He was a clever gentleman well liked by all.

LAUNDRY.—Prompt payment of all Laundry bills must be made every month, as the company demands it. Patrons will please be governed accordingly.

SIDEWALK IMPROVEMENT.—Dr. Lovell has made a new section to his pavement in front of his property, fronting on Main street, a much needed improvement. Let others do likewise.

D. G. Martin, manager of Chenault & Cos. store and business at Brush Creek is right up to his shoulder blade in work and his assistants Messrs Evans and Williams find very few idle moments.

Judge Morrow will likely be a candidate for reelection. If his nomination depended on his Rockcastle republican friends he would have plain sailing. The old Judge is a mighty popular man and his friends are legions.

Contracts for grading and bridge building on the Brush Creek valley railroad have been let and actual work begun. Two car loads of tools arrived at Brush Creek Saturday. S. N. Davis, of this place is a member of the locating engineer corps.

The Big Hill Coal Co., is putting in a 1200 foot incline railroad to reach one of their mines near Brush Creek station, which will soon be ready for operation when they will be ready to furnish their fine quality of black diamonds in much larger quantities than heretofore.

The thoughts and feelings of those whose gardens are raided by the small and large hogs raised upon the streets would hardly be appropriate to appear in print. The writer, with others, has suffered this imposition, at various times, for several years past. If the porkers, can't root open a gate they dig under the fence, get in and mutilate a garden in a single night. It's a mighty aggravating thing to put up with.

The Brodhead Fair catalog has just been issued from this office. The large and liberal premium list will no doubt attract many exhibitors which insures a still better exhibition than even any of the six excellent preceding fairs held by its energetic and pushing managers. Increased interest is being taken by our people and Rockcastle is proud of the enterprise and call it "our" Fair. Lincoln and surrounding counties will continue to increase their exhibits and attendance. August 20, 21 and 22 will show a larger gathering at Brodhead than in any of the past years.

Encampment.—The annual State Guard Encampment will be held at Mammoth Cave, one of the world's wonders, beginning July 30 and ending August 18, 1902. Strong efforts are being put forth to make this the most attractive and entertaining Encampment yet held, and to this end, the social features during Encampment, will be quite extensive. Three "Grand Balls" will be given during each regiment's encampment, aside from the "hops" that will occur nightly. One in honor of the Governor, one in honor of the Adjutant general, and one in honor of the officers of each regiment. The satisfaction of viewing Mammoth Cave, an education within itself, the pleasure of boating, fishing and bathing in historic Green River, together with the numerous social festivities, will make this an exceptional time for making the trip. The lowest rates ever given by the railroads of the State, will prevail during the entire Encampment, while equally as low rates will be given at the hotel, and for Cave fees.

Dr. Lapsley, of Danville, will preach at the Presbyterian Church next Sunday, the 27th. All are cordially invited.

Mt. Vernon has more pretty babies than any town of its size and every one of the little rascals are smart as can be.

The base ball boys here have got it into their heads that they can beat any thing on the turf in the mountains and a portion of the blue grass thrown in.

Editor Albright, of the Mt. Vernon Signal, is on hand, accompanied by his handsome bride of a few days.—Owensboro Special to Louisville Times of 23rd.

The horrible death of Lapsley Howell who was killed by a train at Livingston Saturday afternoon again demonstrates the danger of jumping onto moving trains.

The SIGNAL's correspondents, with three exceptions, failed to come to the front this week, which caused the pro-tem editor, the foreman and devil some extra scratching to find material for this issue.

The Marshal at Lancaster took a barrel of beer that was being taken, by dray, from depot to a house in town and deposited same in city counsel room. He proposes to carry out the Farris law. This will be a test case.
